HOW IT WORKS

Your Remodel, Step by Step

THE MR. HOME HELPER PROCESS

Before you pick a single color, here's exactly what our crew does behind the walls — because a beautiful bathroom only lasts when what's underneath is done right.

- 1 Demo to the studs**
We strip out the old tub or shower completely — surround, fixtures, and all — down to the bare studs, and haul away every bit of debris.
- 2 Inspect, repair or replace**
With the walls open, we check the framing and subfloor and repair or replace anything soft, rotted, or out of level before anything new goes in.
- 3 New plumbing lines & valves**
Fresh supply lines and a brand-new valve behind the wall — we don't reuse tired plumbing and hide it behind a pretty surface.
- 4 New mold & mildew-resistant backer board**
The wet area is rebuilt with backer board that's made to resist mold and mildew.
- 5 Corner reinforcement & waterproofing**
Corners are reinforced and the entire wet area is sealed so water stays where it belongs for the long haul.
- 6 Custom-fitting your new acrylic panels**
Your walls, base or tub, and trim are measured and custom-fitted to your bathroom — tight seams, clean lines, zero grout.
- 7 All the finishing touches**
New vanity, toilet, molding, and paint — plus fixtures, caulk, and cleanup — for a **complete** bathroom remodel. Then we walk the finished bathroom with you before we call it done.

Most acrylic bathrooms are completely finished **in as little as 1-3 days** — one crew, 100% in-house, never subcontractors. The pages that follow are every selection you'll make; your consultant will walk you through them one at a time.

Wall Colors & Patterns

INCLUDED WITH INSTALLATION

Every acrylic conversion includes your choice of wall color — thirteen solid colors and stone-look patterns, all grout-free and wipe-clean. Wall selection is part of your standard installation price, not an add-on.

Scalloped Accent Wall — matte white. A sculpted wave texture that turns the back wall of your shower into a designer feature. The soft ripple catches light beautifully and pairs with any of the colors above on the side walls — same easy-clean acrylic, zero grout.

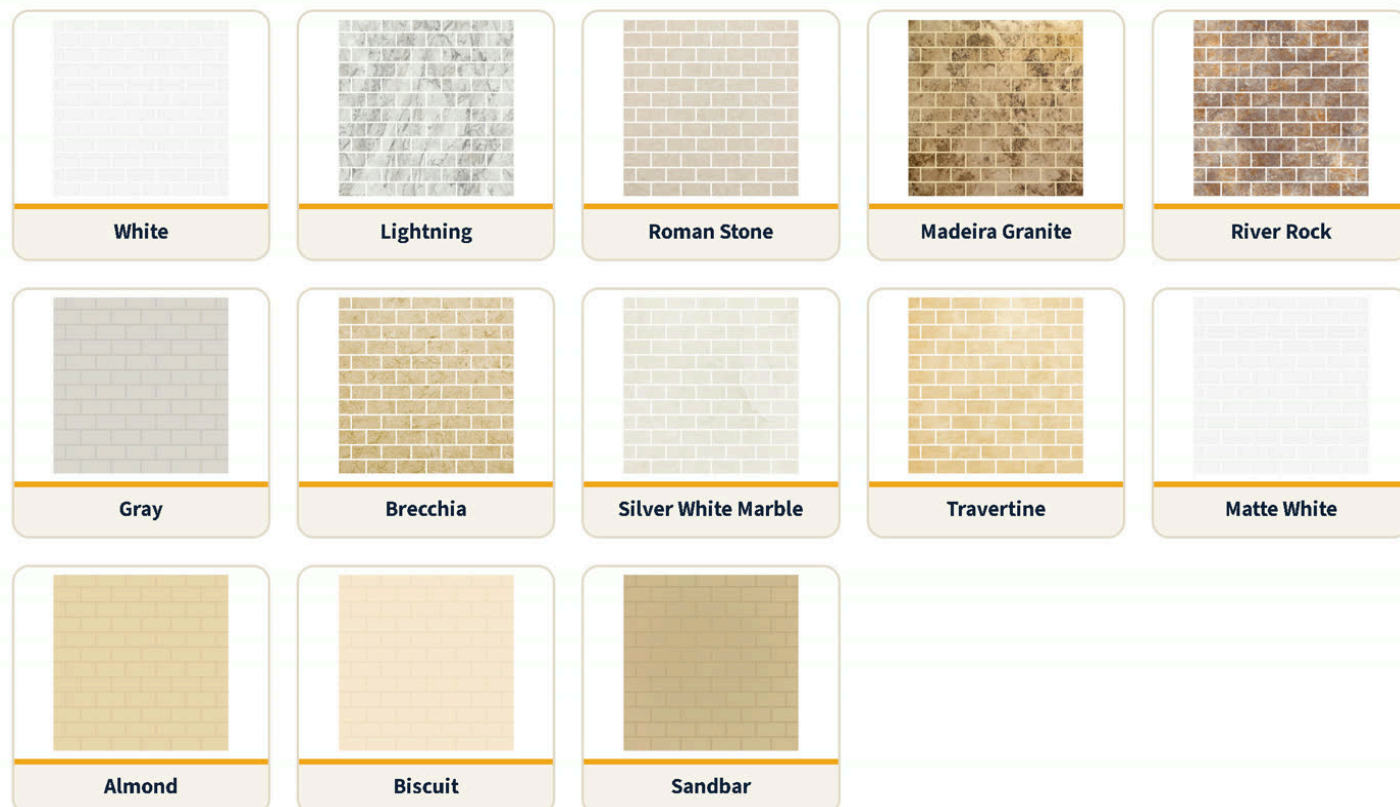

Wall color and pattern selection is **included in your installation** — one standard price, never an upcharge. Shown here as flat panels; your installer forms and trims each wall to your bathroom.

Laser-Etched 3" × 6" Subway

INCLUDED WITH INSTALLATION

The classic subway-tile look, laser-etched directly into the acrylic panel — crisp tile lines with **no grout to scrub, ever**. Available in all thirteen colors and patterns.

Laser-etched pattern selection is **included in your installation** — one standard price, never an upcharge.

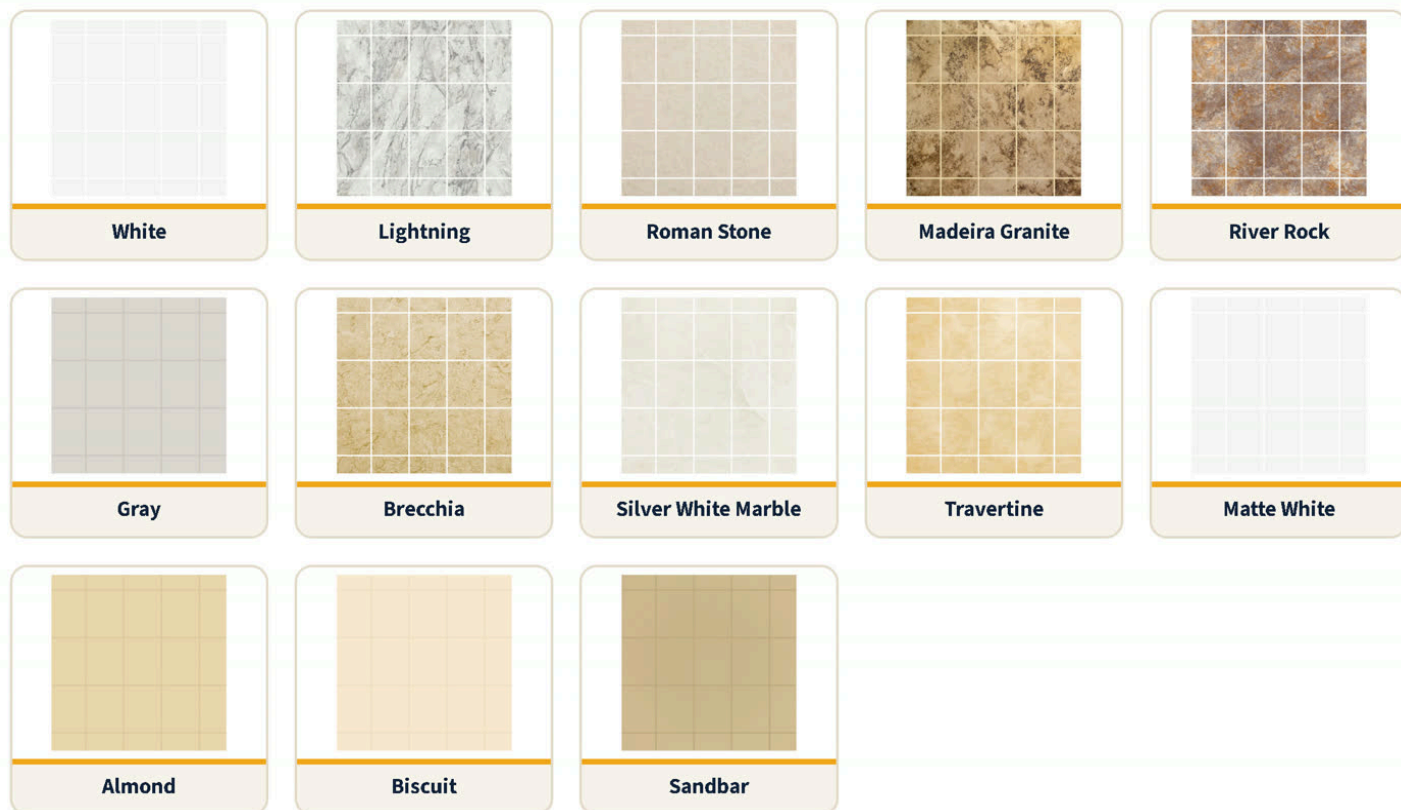

This is the look most homeowners ask for by name: real subway-tile charm without a single grout line. Because the pattern is etched into one solid acrylic panel, there's nothing to crack, discolor, or re-caulk — the tile look you want with the five-minute wipe-down you'll love. Pick a bright white for a timeless bath or a stone pattern for instant warmth.

ACRYLIC WALL SYSTEMS

Laser-Etched 8" × 10" Tile **INCLUDED WITH INSTALLATION**

A larger-format tile pattern laser-etched into the acrylic — fewer, cleaner lines for a more modern, open feel. Available in all thirteen colors and patterns.

Laser-etched pattern selection is **included in your installation** — one standard price, never an upcharge.

The 8" × 10" format is the contemporary choice — larger "tiles" mean fewer lines on the wall, so stone patterns like Silver White Marble and Travertine read almost like full slabs. It makes a 60" shower feel bigger, and like every panel we install, it's one seamless sheet of acrylic: no grout, no mildew lines, no maintenance beyond a quick rinse.

Spray Foam Bathtubs

INCLUDED WITH INSTALLATION

Acrylic bathtubs reinforced with high-density spray foam for a solid, free-standing tub that's quiet, sturdy, and holds heat — in a clean straight-skirt design. Pick your size, depth, and drain side — your tub is **included in your installation**, just like your walls.

OPTION	AVAILABLE CHOICES
Sizes	60" × 30" · 60" × 32"
Depths	13" · 15" · 17" · 19" extra-deep soak*
Drain position	Left · Right
Colors	White · Gray

*The 19" extra-deep soak is made in 60" × 32". Your tub — like your walls, rough plumbing, and building materials — is **included in your installation**; ask about the right depth for your household at your free consultation.

These are the same tubs we install in our 1–3 day acrylic conversions. Each one starts as a premium acrylic shell, then gets back-sprayed with high-density structural foam — so the finished tub is free-standing, solid underfoot with no flex, and insulates your bathwater like a cooler keeps ice. Deeper 17" and 19" models turn a standard alcove into a true soaking tub without moving a single wall.

SHOWER BASES

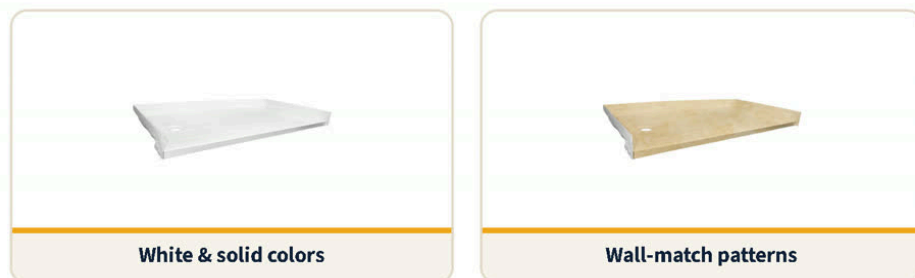

Spray Foam Shower Bases INCLUDED WITH INSTALLATION

Our shower conversions sit on a foam-reinforced acrylic base — rigid, fully supported underfoot, and warm to the touch. Choose your size, drain position, and color below — your base is **included in your installation**, just like your walls.

OPTION	AVAILABLE CHOICES
Sizes	60" × 30" · 60" × 32"
Drain position	Left · Center · Right
Colors	White, Black, Gray — or a finish that matches your wall pattern (Brecchia, Lightning, Madeira Granite, River Rock, Roman Stone, Sandbar, Silver White, Travertine)

LOW-BARRIER OPTION — EASY STEP-IN, NO GEL COAT · ADDITIONAL COST, NOT INCLUDED IN INSTALLATION

The low-barrier base nearly eliminates the step into the shower — ideal for accessibility and aging-in-place. One additional cost per finish group covers 60×30 and 60×32, left or right drain. Your **standard base** — like your walls, rough plumbing, and building materials — is **included in your installation**; the low-barrier base is an upgrade — we'll quote the additional cost at your free estimate.

Lineax & Velum

TRIM KITS · BY DELTA FAUCET

Match your shower hardware to your sink faucet — the same Lineax and Velum designs, as tub & shower trim kits with Delta's pressure-balanced Monitor® valve technology. Every set comes in **Chrome**, **Brilliance Stainless**, **Matte Black**, and **Champagne Bronze**, pictured below.

LINEAX — ALL FOUR FINISHES

VELUM — ALL FOUR FINISHES

TRIM KIT

LINEAX Tub & Shower · 5-spray head

LINEAX Shower Only · 5-spray head

VELUM Tub & Shower

VELUM Shower Only

Required with every trim kit on this page: the Delta MultiChoice® R10000 universal rough-in valve — the behind-the-wall workhorse these trims mount onto (one per shower). Because it's universal, you can switch to a different Delta trim style years from now **without opening the wall**.

Installation is quoted with your bathroom project.

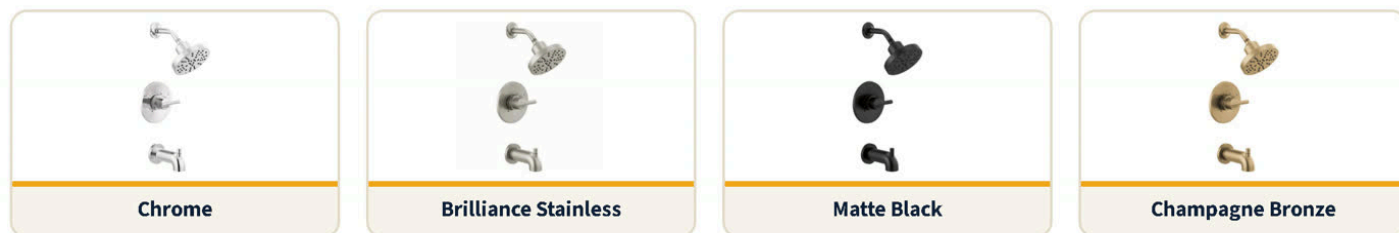

TUB & SHOWER FIXTURES

Nicoli & Modern

COMPLETE SETS & SYSTEMS • BY DELTA FAUCET

Step-up fixtures with designer looks — the Nicoli sets arrive **complete with the rough-in valve in the box** in all four finishes, and the Modern shower systems bundle a raincan, hand shower, and valve in one package.

NICOLI – ALL FOUR FINISHES • VALVE INCLUDED

HAND SHOWER OPTION • MODERN RAINCAN TRIM • MODERN SHOWER SYSTEMS

FIXTURE

Shower Shelves & Niches

BUILT-IN STORAGE

Corner shelves and a recessed niche, installed right into your new acrylic walls — in color-matched acrylic or Liquid Accents metal finishes that pair with the fixtures in this guide.

STYLE	FINISHES
COLOR-MATCHED ACRYLIC Single Tier Corner Shelf	All 13 wall colors & patterns — matches your walls exactly
LIQUID ACCENTS • METAL Slotted Corner Shelf	Chrome · Brushed Nickel · Brushed Gold · Matte Black · Oil Rubbed Bronze
LIQUID ACCENTS • METAL Single Tier Corner Shelf	Chrome · Brushed Nickel · Brushed Gold · Matte Black · Oil Rubbed Bronze
LIQUID ACCENTS 12 × 24" Recessed Niche	White · Gray · Matte Black · Stainless Steel

The recessed niche installs fully into the wall — no shampoo bottles on the tub edge · installation quoted with your project.

SHOWER & TUB DOOR COLLECTION

Glacier ENTRY LEVEL · 1/4" GLASS

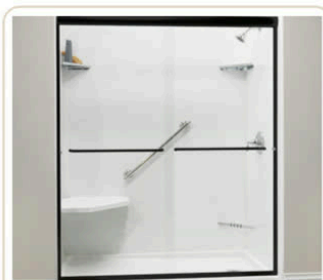

Our value-smart sliding bypass door — 1/4" glass in clear or frost, with horizontal towel-bar handles that double as handy towel storage. Four finishes.

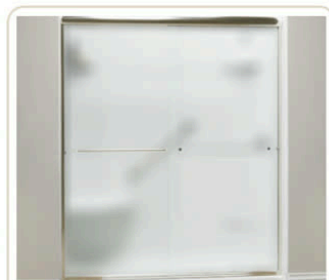

Brushed Nickel

Chrome

Matte Black

Frost Glass Option

SIZE

TUB DOOR 60" W × 62" H

SHOWER 60" W × 70" H

SHOWER 60" W × 76" H

Every finish at no upcharge — Brushed Nickel, Chrome, Matte Black, or Oil Rubbed Bronze. Every door shown fits a standard 58"–60" wide opening · **all models available in other sizes upon request** · installation quoted with your project.

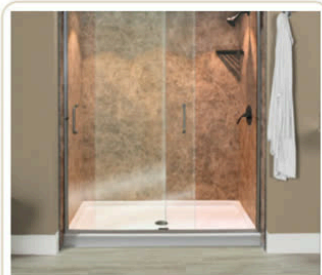

The Glacier proves an affordable door doesn't have to look like one. The glass runs nearly frame to frame for a bright, open feel, and the horizontal handle bars keep towels right where you want them. Choose **clear glass** to show off your new acrylic walls, or **frost** for built-in privacy that also hides water spots between cleanings.

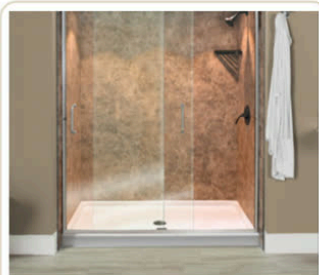

SHOWER & TUB DOOR COLLECTION

Everest ENTRY LEVEL · 1/4" GLASS

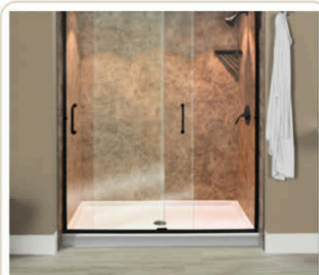

The Glacier's modern twin — same smooth-gliding 1/4" glass bypass door, finished with sleek full-length vertical handles for a cleaner, more contemporary look.

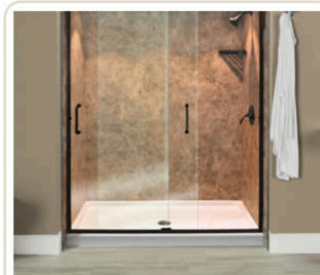

Brushed Nickel

Chrome

Matte Black

Oil Rubbed Bronze

SIZE

TUB DOOR 60" W × 62" H

SHOWER 60" W × 70" H

SHOWER 60" W × 76" H

Every finish at no upcharge — Brushed Nickel, Chrome, Matte Black, or Oil Rubbed Bronze. Every door shown fits a standard 58"–60" wide opening · **all models available in other sizes upon request** · installation quoted with your project.

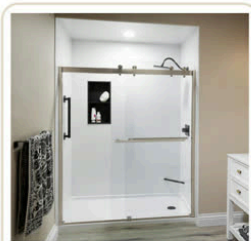

Glacier or Everest? They're the same dependable door — the difference is the handle. Choose the Glacier's horizontal towel bars for everyday practicality, or the Everest's vertical pulls for a taller, more modern line. Either way you get smooth-rolling 1/4" glass in your choice of clear or frost, sized for tubs and showers alike.

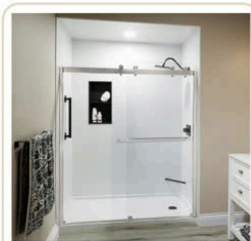

SHOWER & TUB DOOR COLLECTION

Denali **MID TIER • 5/16" GLASS**

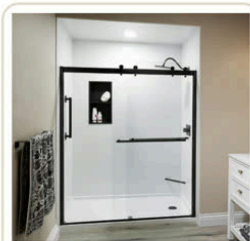

A serious step up: barn-style double slider with exposed top rollers and thicker 5/16" glass, in clear or frost — with your choice of horizontal towel-bar or vertical handles.

Brushed Nickel

Chrome

Matte Black

Oil Rubbed Bronze

Vertical Handle Option

SIZE

TUB DOOR **60" W × 62" H**

SHOWER **60" W × 74" H**

SHOWER • VERTICAL HANDLES **60" W × 74" H**

Every finish at no upcharge — Brushed Nickel, Chrome, Matte Black, or Oil Rubbed Bronze. Every door shown fits a standard 58"–60" wide opening • **all models available in other sizes upon request** • installation quoted with your project.

The Denali is where the bathroom starts to feel designer. The exposed top-roller barn hardware turns the door itself into a feature, and the thicker **5/16" glass** adds a noticeably more solid feel and a smoother, quieter glide than any entry door. Pick the classic towel-bar handles or go sleeker with vertical pulls — in four finishes, clear or frost.

SHOWER & TUB DOOR COLLECTION

Premier **PREMIUM · 3/8" GLASS · SOFT CLOSE**

Our flagship shower door: a barn-style double slider in substantial 3/8" clear glass with a luxurious soft-close glide — and five designer finishes, including brushed gold.

Brushed Gold

Brushed Nickel

Chrome

Matte Black

Oil Rubbed Bronze

SIZE

SHOWER **60" W × 74" H**

Every finish at no upcharge — including Brushed Gold. Fits a standard 58"–60" wide opening · **available in other sizes upon request** · installation quoted with your project.

The Premier is the door you notice the moment you walk in. Thick 3/8" glass gives it the solid, substantial feel of a custom glass enclosure, the exposed-roller barn hardware makes a statement in any of five finishes, and the **soft-close system** eases the door shut gently and quietly every time — no slamming, no rattle. It's the finishing touch for a showpiece bathroom.

BATHROOM VANITY COLLECTION

Doveton **WHITE**

Crisp shaker styling with matte black hardware and a white engineered marble top.

30"
SINGLE SINK

48"
SINGLE SINK

60"
DOUBLE SINK

Also available: **18" · 36"**

The Doveton is our most popular vanity line for good reason. Clean shaker doors, deep storage drawers, and a bright white engineered marble top give it a crisp, timeless look that works in any bathroom — from a small hall bath to a full primary suite. The matte black hardware comes pre-installed and pairs beautifully with the black fixtures and trim we offer with our acrylic wall systems.

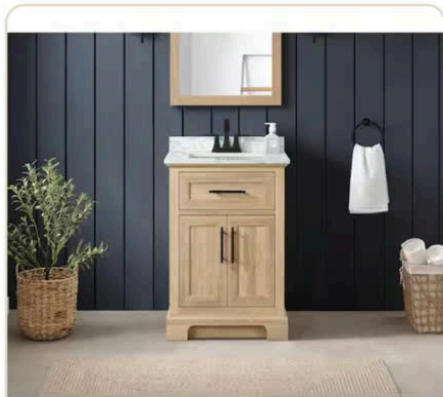

Solid, furniture-grade construction — no flat-pack shortcuts. Every Doveton arrives fully assembled with the top and sink already mounted. We handle delivery, leveling, plumbing hook-up, and caulking as part of your remodel, so your new vanity goes in right the first time and is ready to use the day we finish.

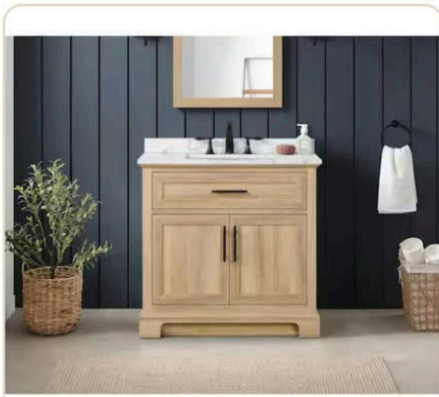

BATHROOM VANITY COLLECTION

Doveton WEATHERED TAN

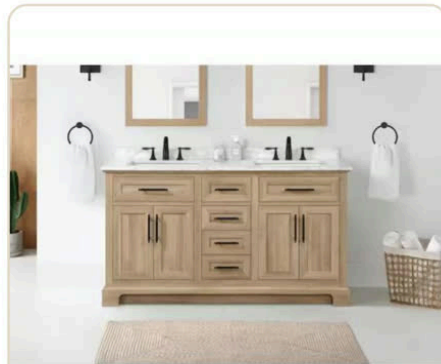

Warm wood-look finish with matte black hardware and a white engineered marble top.

24"
SINGLE SINK

36"
SINGLE SINK

60"
DOUBLE SINK

Also available: 30" · 48"

Weathered Tan brings a warm, natural woodgrain feel without the upkeep of raw wood. It's a relaxed, coastal-farmhouse look that hides everyday wear and fingerprints far better than painted finishes, making it a favorite for busy family bathrooms. Matte black hardware and a white engineered marble top keep the overall look bright and current.

The same sturdy Doveton build in every size. Each vanity comes fully assembled with the top and sink in place, and the nonporous engineered marble wipes clean with a damp cloth — no sealing, no scrubbing. It's the same low-maintenance philosophy as our acrylic shower walls: a bathroom that stays beautiful without the work.

BATHROOM VANITY COLLECTION

Doveton **DARK WALNUT**

Rich walnut grain with brushed gold hardware and a white engineered marble top.

24"
SINGLE SINK

36"
SINGLE SINK

60"
DOUBLE SINK

Also available: **30"** · **48"**

Dark Walnut is the Doveton dressed up. The deep, rich grain paired with brushed gold hardware gives your bathroom a warm, high-end designer look — the kind you see in magazines — at a price that fits a real remodel budget. Against a white or marble-look acrylic shower wall, this finish absolutely pops.

Built solid and delivered ready. Fully assembled cabinet, white engineered marble top, and sink — all included, nothing extra to pick out or wait on. Our crew levels it, hooks up the plumbing, and caulks it in as part of your project, backed by the same people who stand behind the rest of your remodel.

BATHROOM VANITY COLLECTION

Doveton **SAGE GREEN**

Soft sage green with brushed gold hardware and a white engineered stone top.

24"
SINGLE SINK

36"
SINGLE SINK

60"
DOUBLE SINK

Also available: **30"** · **48"**

Sage Green is the easiest way to add real personality to a bathroom without committing to painted walls. This soft, calming color has become one of the most requested looks in bath design, and the brushed gold hardware and white engineered stone top give it a custom, boutique-hotel feel straight out of the box.

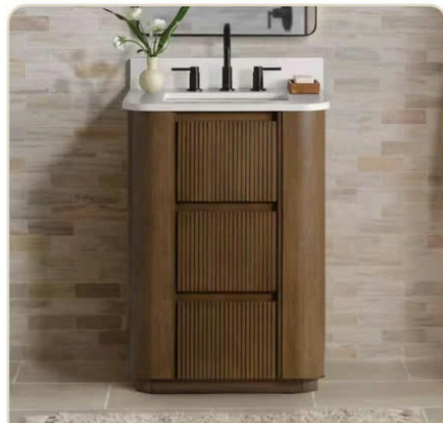

Style that doesn't sacrifice sturdiness. Like every Doveton, the Sage Green arrives fully assembled — cabinet, stone top, and sink as one solid, ready-to-install unit. The nonporous top resists stains and wipes clean in seconds, so the vanity stays as fresh-looking as the day we set it in place.

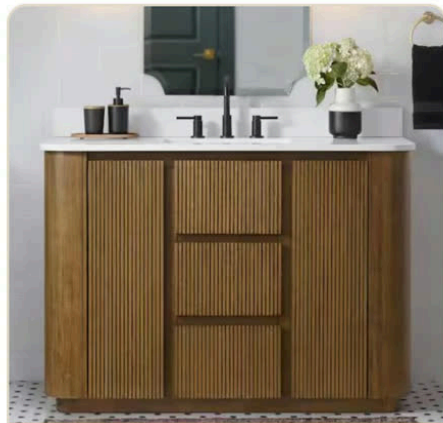

BATHROOM VANITY COLLECTION

Wilsham **AMERICAN OAK**

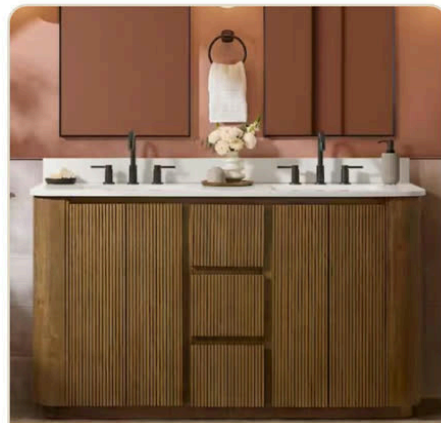

Modern curved profile with fluted drawer fronts and a white stone top.

25"
SINGLE SINK

49"
SINGLE SINK

61"
DOUBLE SINK

Also available: **31" · 37" (white quartz top)**

The Wilsham is a true statement piece. Softly curved corners and fluted drawer fronts give it the look of custom furniture from a high-end design studio — nothing else in this catalog turns heads like it. The warm American Oak finish works with both modern black and classic brushed fixtures.

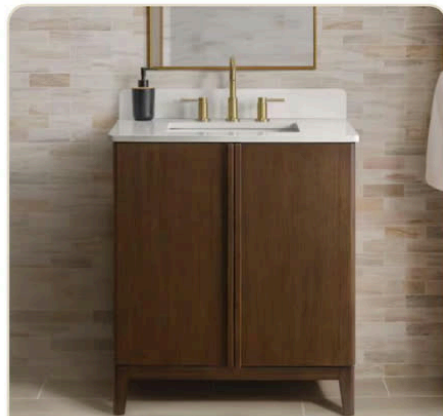

Designer looks, serious practicality. Behind those fluted fronts are full-width drawers that hold more than a standard door cabinet, and the white stone top with mounted sink arrives in one fully assembled piece. We set it, level it, and plumb it in as part of your remodel — a boutique centerpiece with none of the boutique hassle.

BATHROOM VANITY COLLECTION

Sellan **DARK WALNUT**

Mid-century lines with tapered legs and a Calacatta white quartz top.

31"
SINGLE SINK

49"
SINGLE SINK

61"
DOUBLE SINK

Also available: **37"**

The Sellan brings mid-century style to the bathroom: clean lines, rich dark walnut tones, and elegant tapered legs that lift the cabinet off the floor. That raised, furniture-style stance makes the whole room feel bigger and airier — and makes the floor underneath easy to clean.

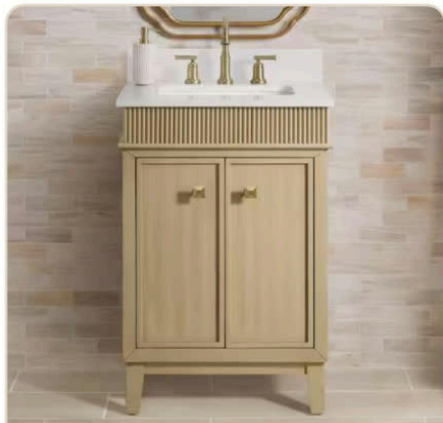

Topped with genuine Calacatta-style white quartz. Quartz is one of the toughest countertop materials you can put in a bathroom — nonporous, stain-resistant, and effortless to keep clean. Each Sellan arrives fully assembled with top and sink mounted, and our crew installs and plumbs it as part of your remodel.

BATHROOM VANITY COLLECTION

Danby **PLATINUM OAK**

Light oak with a fluted apron, square knobs and an engineered stone top.

24"
SINGLE SINK

36"
SINGLE SINK

60"
DOUBLE SINK

Also available: **30"** · **48"**

The Danby's fluted apron and square knobs give it a tailored, high-design look in a light platinum oak that brightens any bathroom. It reads custom-built — the kind of detail people reach out and touch — while staying neutral enough to match whatever tile, paint, or acrylic wall color you choose.

All drawers, all storage. Unlike most vanities this size, the Danby is built around banks of full-width drawers, so towels, dryers, and everyday items each get their own spot — no digging in a dark cabinet. It arrives fully assembled with the engineered stone top and sink mounted, and we install it as part of your project.

BATHROOM VANITY COLLECTION

Aberdeen **ANTIQUE OAK**

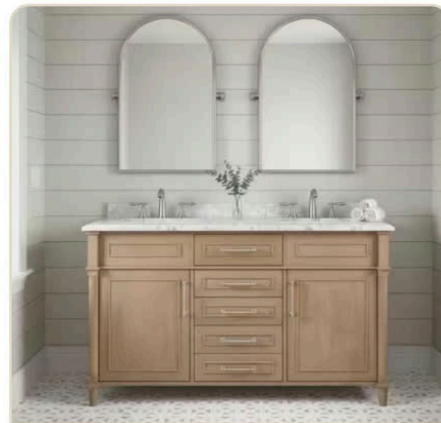

Traditional furniture styling with turned legs and a genuine Carrara marble top.

24"
SINGLE SINK

36"
SINGLE SINK

60"
DOUBLE SINK

Also available: **30"** · **48"**

The Aberdeen is timeless, traditional craftsmanship: a furniture-style cabinet with turned legs, framed doors, and an antique oak finish that looks like a treasured heirloom piece. It's the vanity for homeowners who want their bathroom to feel classic and established rather than trendy.

Crowned with genuine Carrara marble. This is real quarried Italian marble — the same stone used in luxury baths for centuries — included, with the sink already mounted. The cabinet arrives fully assembled, and our crew delivers, levels, and plumbs it in as part of your remodel.

VANITY FAUCET COLLECTION

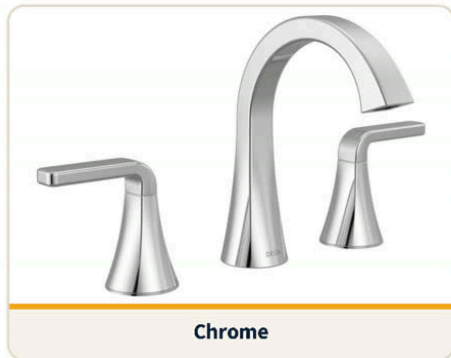

Lineax **BY DELTA FAUCET**

Soft-contemporary styling — a high-arc spout, sculpted paddle handles, and tapered bases. Every faucet in this section is matched to the pre-drilled tops on our vanity collection.

4" CENTERSET • FITS DOVETON 18"-30" VANITIES (ALL COLORS)

8" WIDESPREAD • FITS DOVETON 36"-60" + ALL WILSHAM, SELLAN, DANBY & ABERDEEN

The Lineax is the easy choice that looks far from basic: a graceful high-arc spout for plenty of sink room, with flat paddle handles that feel smooth and modern in the hand. In polished chrome it reads classic; in matte black or champagne bronze it dresses up a white Doveton top beautifully against black or brass cabinet hardware.

Built by Delta Faucet and backed by Delta's Lifetime Limited Warranty. Installation is quoted with your bathroom project, and matching tub & shower trim is available in the same finishes.

VANITY FAUCET COLLECTION

Velum **BY DELTA FAUCET**

Bold, architectural design — a squared spout and crisp geometric lines that make the faucet the statement piece of the vanity.

SINGLE HOLE • FITS DOVETON 18"-30" TOPS — INSTALLS WITH THE INCLUDED DECK PLATE

Chrome

Matte Black

Champagne Bronze

8" WIDESPREAD • FITS DOVETON 36"-60" + ALL WILSHAM, SELLAN, DANBY & ABERDEEN

Matte Black

Champagne Bronze

If the bathroom is going modern, the Velum finishes the look. Its squared spout and chiseled profile pair naturally with the clean lines of the Wilsham's fluted oak or a floating mirror — and in champagne bronze over a dark walnut Sellan it delivers a true designer moment. The single-handle version keeps smaller Doveton tops uncluttered, with one easy lever for temperature and flow.

Built by Delta Faucet and backed by Delta's Lifetime Limited Warranty. Installation is quoted with your bathroom project, and matching tub & shower trim and towel bars are available in the same finishes.

VANITY FAUCET COLLECTION

Nicoli BY DELTA FAUCET

Minimalist European design — slim cylindrical bodies and graceful arc spouts, in our widest range of finishes, including two-tone designer pairings.

SINGLE HOLE • FITS DOVETON 18"-30" TOPS — INSTALLS WITH THE INCLUDED DECK PLATE

4" CENTERSET • FITS DOVETON 18"-30" VANITIES (ALL COLORS)

8" WIDESPREAD • FITS DOVETON 36"-60" + ALL WILSHAM, SELLAN, DANBY & ABERDEEN

The Nicoli brings quiet, modern elegance to any vanity in this catalog — slim round bodies, smooth arc spouts, and a WaterSense-labeled flow that uses at least 20% less water without sacrificing performance. The two-tone black-and-bronze pairings are the standout: cabinet-hardware looks, right at the sink. Prefer a squared spout? The full angular-spout Nicoli lineup is on the next page. **Built by Delta Faucet**, backed by Delta's Lifetime Limited Warranty; installation is quoted with your project.

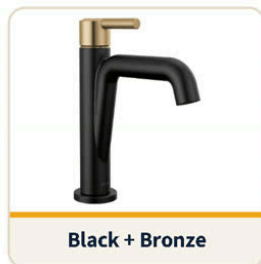

VANITY FAUCET COLLECTION

Nicoli — Squared Spout BY DELTA FAUCET

The same slim Nicoli body with a crisp 90° angular spout — a sharper, more architectural take on the collection.

SINGLE HOLE • FITS DOVETON 18"-30" TOPS — INSTALLS WITH THE INCLUDED DECK PLATE

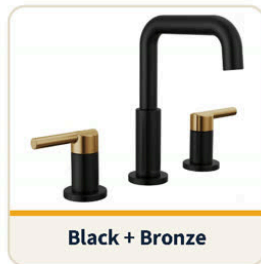

*Champagne bronze single hole includes the matching pop-up drain.

4" CENTERSET • FITS DOVETON 18"-30" VANITIES (ALL COLORS)

8" WIDESPREAD • FITS DOVETON 36"-60" + ALL WILSHAM, SELLAN, DANBY & ABERDEEN

Same family, sharper lines. The squared-spout Nicoli swaps the smooth arc for a clean 90° profile that echoes rectangular sinks, framed mirrors, and the straight edges of a modern vanity — while keeping the slim round body and easy lever handles the collection is known for. Mix freely with the arc versions throughout the house; the finishes match exactly. **Built by Delta Faucet**, backed by Delta's Lifetime Limited Warranty; installation is quoted with your project.

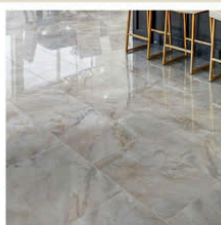

Flooring & Molding

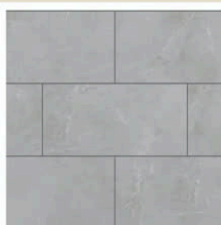

LIFEPROOF® LUXURY VINYL

Waterproof click-lock luxury vinyl made for bathrooms — stone-look tile or wood-look plank, finished with clean vinyl base molding that never rots.

LUXURY VINYL TILE • 12" × 24" STONE LOOKS

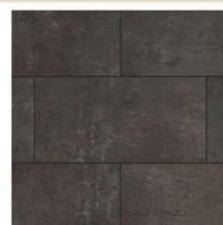

Winding Delta Quartzite

Grandview Marble

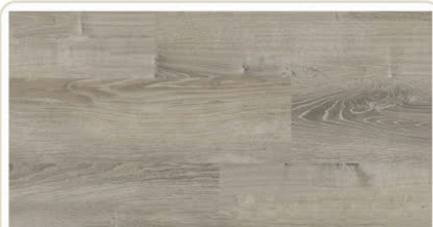

Mountain Brook Marble

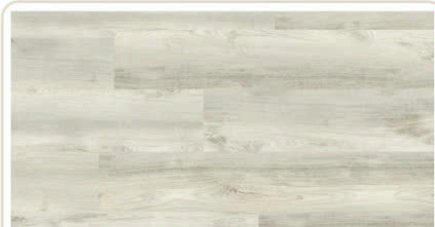

Overlook Slate

LUXURY VINYL PLANK • 9" × 48" WOOD LOOKS

Sterling Oak

Chiffon Lace Oak

Vinyl Base Molding — 3-1/4" × 9/16" Colonial profile. The finishing line around your new floor, in moisture-, rot-, and termite-resistant vinyl that can be painted to match. Installed in full sections and cut to fit your bathroom.

Flooring and molding are priced per square foot / linear foot of material — we measure your bathroom and quote the exact amount at your free consultation. Remember: **with the current promotion, flooring installation is FREE** when purchased with your tub or shower conversion.

Toilets **AMERICAN STANDARD • SEAT INCLUDED**

The finishing piece of your remodel — American Standard Cadet PRO and Cadet 3 two-piece toilets in white, with your choice of bowl shape and rough-in. **Every toilet includes the matching American Standard slow-close seat.**

MODEL	BOWL	ROUGH - IN
CADET PRO Right Height • 2-piece	Round	12"
CADET PRO Right Height • 2-piece	Elongated	12"
CADET PRO Right Height • 2-piece	Round	10"
CADET PRO Right Height • 2-piece	Elongated	10"
CADET 3 FloWise • Right Height • 2-piece • 1.28 gpf	Elongated	12"

Slow-close seat included with every toilet. Every toilet includes the genuine American Standard slow-close seat matched to your bowl shape — no slamming lids, no extra line on the quote.

All toilets in white, measured against your existing rough-in at the consultation. Additional Cadet 3 bowl and rough-in configurations available on request • installation quoted with your project.

ADD-ON SERVICES

Finish It With Fresh Paint **FLAT-RATE ADD-ON**

A brand-new shower deserves walls to match. Add professional painting to your remodel and walk into a bathroom that's finished **floor to ceiling** — not just inside the shower.

Minor drywall repairs first

Nail pops, dings, and small cracks get patched and sanded smooth before any paint goes on — we don't just slap paint over your walls.

Ceiling

Up to two full coats overhead — where steam shows every old flaw first.

Walls

Every wall in the bathroom, up to two coats, in the color you choose.

Trim

Baseboard, casing, and window trim — crisp lines against your fresh walls.

Interior side of the door

The detail most people forget — painted so nothing in the room says "before."

ONE FLAT RATE • NO SURPRISES

Quoted free at your estimate

Minor drywall repairs included • ceiling • walls • trim • interior door side — up to 2 coats.

Available exclusively with bathrooms remodeled by Mr. Home Helper.

Painting with your remodel just makes sense: our crew is already on site, the room is already prepped and protected, and the fresh walls go up the same week as your new bathroom — one project, one cleanup, one completely finished room.

WHY ACRYLIC

Why This Bathroom Lasts **THE HONEST CASE FOR ACRYLIC**

No pressure here — acrylic is simply the right fit for people who don't want to maintain grout lines, want a fast turnaround, and want a **stress-free bathroom remodel**. Here's why it holds up.

-  **No grout lines to maintain**
Acrylic walls are one solid, non-porous sheet — nothing to scrub, bleach, or re-seal, ever. (Love the look of tile? We build beautiful custom tile bathrooms too — acrylic is for homeowners who'd rather never think about grout again.)
-  **Tight and waterproof, inside and out**
Mold-and-mildew-resistant backer board, reinforced corners, and a fully sealed wet area — we go the extra mile to make sure every seam in your shower is tight and waterproof.
-  **Solid underfoot, warm to the touch**
Our tubs and bases are backed with high-density structural foam — no flex, no hollow sound, and bathwater that holds its heat instead of losing it to a cold shell.
-  **Cleaning takes minutes, not a Saturday**
A rinse and a wipe-down. No grout lines to scrub, no re-caulking rituals, no bottle of harsh chemicals under the sink just to keep the shower white.
-  **Days, not weeks**
Most acrylic bathrooms are completely finished in as little as 1–3 days — by our own 100% in-house crew, never subcontractors. One crew, start to finish.
-  **Everything in writing**
Manufacturer limited warranties on the acrylic system, Delta's Lifetime Limited Warranty on the faucets, and a licensed, fully insured local contractor standing behind the work.

**Everything in this guide — walls, tub or shower, doors, fixtures, flooring, vanity, and toilet —
from one local crew, with one honest price.**

When you're ready, we'll bring the samples to your kitchen table.
